To search for specific names, type keywords into the search bar in your PDF reader. If a keyword search doesn't turn up expected results, we recommend that you also scroll down into the alphabetical listings to search for the name, as the text-recognition software is not perfect.

The table of contents below can also give you an idea of where to look within the document for other kinds of information listed in the directory, like street guides, government listings, and advertisement indices. Note that the PDF page number and the original directory page numbers are different, because the color-printed advertisement pages in the directories were not numbered.

# FIRST-CLASS FIRE INSURANCE.

## Market Fire Insurance Co.

37 Wall Street, New York.

Figures of the Company for January 1st, 1870.

**Gross Assets, - \$682,811 40**  
**Capital, - - 200,000 00**  
**Actual Surplus, - 430,594 19**

Being over 215 per cent. on the Capital, comparing favorably with other Companies, especially in the indemnity offered by its Policies.

In presenting the Annual Statement of the Company, the Officers have pleasure in pointing to its favorable condition, and congratulating its Stock Holders, Policy Holders, and friends generally, upon the satisfactory results of the business of the year just terminated.

Extracts from the Annual Report to the Superintendent of the Insurance Department:

The *Scrip* issued by this Company, for accumulated or *reserved profits*, can in no sense be a present or even a prospective liability, except in the following contingency, which is the terms of its issue, viz:

"Whenever the said *Scrip Fund* shall exceed Five Hundred Thousand Dollars, the Board of Directors shall thereafter apply the excess thereof annually towards the redemption of the *Scrip*, commencing with that earliest issued.

The *Scrip Fund*, standing on that condition, is a clear, unfettered, unalienable indemnity to the Policies—as much so as the Capital.

The sensible and frank avowal of the Great National Board of Underwriters, and also of the Boards of this and other cities, that our Policies on the "participation plan" are better Insurance—worth ten and twenty per cent. more—than the Policies of the Non-Participating Companies (being "iron-clad," as it were, by the large scrip fund), has had the beneficial effect to largely increase the business and prosperity of the Company—thereby extending its usefulness and advancing the interest and security of its Policy Holders.

The Company will continue, as heretofore, to insure respectable parties against disaster by fire on the *Participation Plan*, or "in the Old Fashioned way," as may be agreed upon. The prompt and liberal adjustment of losses, when "fair and square," will also continue the specialty of the Company.

HENRY P. FREEMAN, Sec'y.

ASHER TAYLOR, Pres't.

WHICH COMPANY IS THE MOST LIBERAL AND EQUITABLE?  
IN ITS DEALINGS WITH POLICY-HOLDERS?

This Table, compiled from the Official Reports to the Insurance Department of New York, for 1869, shows the average amount of money paid AS A SURRENDER VALUE to Policy-holders for each \$1,000 of Insurance lapsed, surrendered, or forfeited during the year 1868.

Name of Company,	Average Surrender Value.
BROOKLYN LIFE, of New York,	\$32 33
Equitable Life,	8 96
Globe Mutual,	2 31
North America,	11 77
Knickerbocker,	26 81
New York Life,	20 56
Widows' and Orphans' Benefit, of New York,	16 41
Manhattan, of New York,	22 84
Washington,	7 38
John Hancock, of Massachusetts,	9 52
Universal Life, of New York,	2 52
Continental,	17

In this important test THE BROOKLYN LIFE shows results of far greater beneficence to its Policy-holders than the other Companies; WHILE IT, ALONE, OF ALL THE COMPANIES ABOVE-MENTIONED, GUARANTEES TO PAY A DEFINITE AMOUNT IN DOLLARS AND CENTS AS A SURRENDER VALUE.

# CARTER'S COMBINED WRITING AND COPYING INK.

MANUFACTURERS AND PROPRIETORS:

**CARTER BROS. & CO.,**  
27 Milk Street, Boston.

**J. P. DINSMORE,**  
36 Dey Street, New York.

Ten years constant use by many of the largest Banking Institutions and Commercial Houses in this Country, has established the superiority of this Ink beyond question.

## A SILVER MEDAL

was awarded at the Mechanics' Fair, in New York; and it has received the HIGHEST PREMIUM over all others from Scientific Institutions in other cities.

### THE ADVANTAGES OF THIS OVER OTHER INKS ARE:

1st. Being equally good for Book-keeping, ordinary Writing or Copying, it does away entirely with the inconvenience of using two kinds of Ink.

2d. It flows from the pen as freely as any writing fluid.

3d. It gives a cleaner, better copy, with less spreading than the best "Copying Ink."

4th. It is permanent, and cannot be erased even with acids.

5th. It does not fade, but grows blacker with age.

6th. It cannot mould, and consequently there is no waste.

7th. It does not thicken by exposure to the air.

8th. It will stand freezing without injury, and may be reduced with water without precipitation.

9th. The color, when first used, is a beautiful dark green, but changes in a very short time to a BRILLIANT JET BLACK.

10th. It is cheaper than any other ink, because a dollar's worth will do more writing.

11th. It is admirably adapted to the most delicate writing, and always "makes its mark."

12th. It is warranted to Flow as FREELY as any Writing Fluid in use; to give as PERFECT A COPY as any Copying Ink, and NOT to THICKEN or MOULD.

**CAUTION.** CARTER'S COMBINED WRITING AND COPYING INK is put up in Glass Bottles, with a Red Label, and the name "CARTER'S INK," blown in the glass. To prevent Swindlers from re-filling genuine bottles and selling it for CARTER'S we now put a Protection Label over the cork of the Quarts and Pints, which, if not broken, is a guarantee that the contents are genuine.

The utmost care is used in selecting the very best materials for all departments of the manufacture; and the proprietors pledge themselves that no trouble or expense shall be spared to keep up the quality, and to make it a PERFECT INK.

If further evidence is wanted, we would suggest A TRIAL; and if not satisfactory, THE MONEY WILL BE REFUNDED.

 SOLD BY STATIONERS GENERALLY.

## LIFE INSURANCE COMPANY,

17 & 19 Warren Street, N. Y.  
N. D. MORGAN, President.

To those desiring to solicit and work for a Company, where combination of strong and useful features are in force, we present the following:

**1st REGISTRY.**—This Company issues New York State Registered Policies secured by pledge of Public Stocks, like the circulation of National Banks.

This makes every Registered Policy secure to the holder as a National Bank Note or United States Bond. Superintendent BARNES says, in his Report for 1869:—So far as the question of security is concerned, a Policy duly registered in this Department, is probably the safest Life Insurance Policy that can be issued by a corporation.

See Regular Bulletin of Registered Policy Account in every Tuesday's *New York Tribune*.

ALL POLICIES REGISTERED IN THE INSURANCE DEPARTMENT FREE OF COST.

**2d MUTUALITY.**—The Company is PURELY MUTUAL, an order authorizing the retirement of the Capital Stock having been granted July, 1869. After January, 1870, all the profits will be divided among the Policy-Holders, after the NEW PLAN of CONTRIBUTION originated by this Company.

**3d NON-FORFEITURE.**—ALL OUR LIFE AND ENDOWMENT POLICIES ARE NON-FORFEITABLE after two or three annual Premiums have been paid, thus securing to your heirs the value of every dollar invested, whether you can continue your policy or not.

**4th. NON-RESTRICTION.**—No Restriction on Travel in the United States or any part of North America, north of the Southern Cape of Florida, or in Europe at any season of the year.

**5th. GRACE IN PAYMENT OF PREMIUMS.**—Thirty days' grace allowed on any renewal payment, and the Policy held good.

**6th. CASH PREMIUMS AND CASH RETURNS OF SURPLUS,** or in addition to Policies.

We want some active, responsible men for Agents, who are willing to work for a reasonable commission.

# THE WARREN Double Oven Cooking Range.

SATISFACTION GUARANTEED

IN ALL CASES.

EVERY RANGE WARRANTED.  
FIVE DIFFERENT SIZES AND KINDS.

Especial attention is invited to the Improvements Incorporated in this Range.  
IT IS SUBSTANTIALLY MADE, OF THE BEST MATERIAL, COMPACT IN FORM, BEAUTIFUL IN DESIGN AND IN ALL RESPECTS FIRST CLASS.

It has an ENLARGED BOILING TOP, giving access to cooking utensils under the Oven, still retaining the flue (conveying heat to the Ovens) in CLOSE PROXIMITY to the fire, thereby securing Convenience and Economy.  
Having but one DAMPER to control the draft and regulate the temperature of the Ovens, using the flue around the Ovens for kindling, not only SIMPLIFIES but secures great Economy of Fuel.

The peculiar construction of the boiling top gives a LARGE SQUARE OPENING DIRECTLY OVER THE FIRE FOR BROILING AND TOASTING, which method will convince good housekeepers that this improvement is an important one, other ranges being deficient in this respect.

The construction of the grate admits of the coal and ashes being removed from the fire box without the ESCAPE OF DUST INTO THE ROOM. Being made into two parts, the expense of displacing the masonry when a new one is required is avoided.

The spacious hot closet is made entirely of cast iron, located directly over the ovens, and easy of access. The shelf projecting over the steam flues is also of cast iron, combining STRENGTH AND DURABILITY, besides affording an admirable place for setting dishes, &c.

Ventilation of Ovens is one of the new and important arrangements, also the method of removing steam and effluvia from cooking is complete.

Also, Sole Agent for STEWART'S COOKING AND HEATING STOVES,  
WALKER & LAWSON FURNACES.

# D. B. COX'S Base Burning & Self-Feeding Fire-Place Heater

PIERSON-CO. SC.

We present this as the most powerful FIRE-PLACE HEATER in the country, possessing new and excellent points not found in any other.

1st. It is all Cast Iron.

2d. It is provided with Brown's Vented Magazine, which secures the burning of all the gases, and thus prevents the escape of any in the room.

3d. A horizontal or annular six-inch flue surrounds the fire-pot, by which a largely increased heat-radiating and conducting surface is obtained by exposing all the outer surface of the fire-pot, and the entire surface of the annular flue to the air, since the inward surface of the flue imparts its heat by conduction and radiation to the air circulating between it and the surface of the fire-pot as well as the outward surface to the surrounding air. This is a recently patented improvement, greatly increasing the heating power above that in any other heater.

4th. The grate or any of the inside castings may be removed and replaced through the front doors without taking down the Heater.

5th. The smoke pipe may be attached to either the right or left hand side to suit the flue in the chimney.

6th. The flues are more easily cleaned than any ordinary stove.

7th. We manufacture them with round or square Frames.

8th. We claim for it fifty per cent. more heating power than any other Fire-Place Heater made.

Patented Dec. 11, 1866; Feb. 12, 1866; April 13, 1869.

**"ABSOLUTE SECURITY THE BEST ECONOMY."**

# **STEAM** FIRE-PROOF **SAFES**

## **SANBORN'S PATENT.**

The remarkable fire-proof quality of this Safe is secured by placing water in copper vessels between the inner wall of the Safe and the book-case, so that, when exposed to fire, steam is generated, carrying off the heat, and protecting the contents of the Safe for any desirable length of time.

Its superiority has been fully demonstrated, having been subjected to severe practical tests with the Safes of all other prominent makers, and always with complete success, preserving its papers while the contents of its competitors were destroyed.

In use this is the driest Safe ever made, as the water is hermetically sealed from contact with the air, completely preventing evaporation.

A practical man needs but to Examine it to be Convinced  
of its **SUPERIORITY.**

**WELDED, STEEL AND IRON BANK VAULTS, BURGLAR-PROOF SAFES,  
AND HOUSE SAFES,**

**ALL WITH THE STEAM IMPROVEMENT.**

The Steam Protection applied to Old Safes, or to Banks and Office Vaults.

## INTERESTING TO THE LADIES.

"How can I get a good Sewing Machine?" is a question often asked among ladies. The answer is simply by going to **No. 126 COURT STREET, BROOKLYN**, where a large assortment of First-Class Machines are kept. You can see them in operation on every variety of sewing. An experienced lady operator will be in attendance to explain and instruct you in their use. Select from among them one you think will suit and have it sent to your home, threaded and ready for use. Commence yourself to learn, and you soon become, with the aid of an operator an adept in its use, and thereby better able to form an opinion of the Machine, and know by actual trial at your home whether the machine you have will do every kind of family sewing or not. Should it not do all you wish or expect of it, return it and try another style of Machine, and keep on doing so, until you feel satisfied that you have one that will do everything required of it.

Machines can be rented, and rent will be allowed to go on any new Machine purchased as part payment. Old Machines of every kind taken in exchange for new ones. Payments can be made weekly or monthly.

All styles of Machines repaired and improved. Needles for all Machines. Silk, Cotton, Thread, Oil and every description of Sewing Machine Trimmings can be had at this office.

☞ We keep constantly on hand the following new improved Family Machines. Grover & Baker, Wilcox & Gibbs', Wheeler & Wilson's, Finkle & Lyon's, Improved Singer, Improved Weed's, Improved Howe's, Florence, &c.
